EXAMPLES:

VINTAGE CANDELLA, per special order from Latvia's largest confectionary manufacturer LAIMA www.laima.lv, has produced candles with a signature design. The key element of signature LAIMA candles lies in the fact that they are produced from ecologically pure soy wax and are harmless to the environment. Also, an innovative wooden wick is used in manufacturing as well as chocolate aroma, of course. Five signature designs for labels add a unique character to the candles. The candles are sent to the Laima Chocolate Museum.
